Summary

Full Stack Developer with 3+ years of progressive experience designing and delivering high-performance web applications across the full stack using JavaScript, React, Node.js, Express.js, MySQL, and MongoDB. Proven ability to own end-to-end feature development from responsive UI components to RESTful API integration and backend optimization with a track record of achieving a 40% performance improvement in production environments. Holds a BSc in Creative Computing alongside certifications in Full Stack Development and AI. Seeking to bring strong technical ownership and scalable engineering practices to a growing product team.

Work Experience

Justyta App

AI Prompt Engineer & Marketing Specialist

06/2025 – Present

United Arab Emirates

- Designed and optimized AI prompts for content creation and marketing campaigns, contributing to a 40% increase in social media engagement and improved content performance.
- Created 100+ bilingual (Arabic & English) graphic design posters and 12+ marketing videos, including scripting, shooting, and editing, ensuring consistent brand messaging across platforms.
- Developed and executed AI-driven content strategies and workflows, generating 50+ qualified leads while reducing content production time through automation.

Prime Marketing Agency

Frontend Developer (Intern)

01/2025 – 06/2025

United Arab Emirates

- Developed a fully responsive website with modern front-end technologies, ensuring cross-browser compatibility and mobile-first design.
- Improved website performance by 40% through code optimization, asset compression, and efficient structuring.
- Implemented dynamic UI components and integrated APIs, enhancing user engagement and overall functionality.

Dime E-commerce Project

Frontend Developer (Freelance)

2024

Remote

- Designed and developed a responsive e-commerce web application with structured product listings and intuitive user interface. Built dynamic front-end components for smooth navigation and optimized user flows using JavaScript.
- Enhanced performance and responsiveness across devices, ensuring fast load times and a seamless shopping experience.

Education

Bath Spa University | Bachelor's Degree

Bachelor of Science in Creative Computing | Current GPA: 3.8/4.0

09/2023 – 06/2026

Ras Al Khaima, UAE

Relevant Modules: Web Development, Database Systems, Software Engineering, UI/UX Design

Technical Skills & Languages

Programming:	HTML, CSS, JavaScript, Python, SQL (MySQL)
Frameworks & Libraries:	React, Tailwind CSS, Node.js, Express.js
Frontend:	Responsive Web Design, UI Development, Cross-Browser Compatibility
Backend:	RESTful APIs, Authentication Systems, Server-side Development
Tools & Technologies:	Git, API Integration, JSON, Vercel Deployment
Databases:	MySQL, MongoDB.

Achievements & Certifications

- Best Developer Intern Award
- High-Performance Optimization Recognition
- Google Developer Group – Building AI Agents Certification
- LinkedIn Certificates – Project Management, AI Prompt Engineering & Full Stack Developer
- Kaggle Certificates – Machine Learning, Data Visualization & Pandas
